Zoo Ambassadors

Mysore Zoo

Sri Chamarajendra Zoological Gardens, Mysore established in 1892 has got international recognition for its unique achievements in breeding more than 151 species of both exotic and indigenous origin. The Mysore Zoo has contributed to the conservation by developing a unifying bond between animals and visitors inspire, concern for wildlife and wild spaces.

The main objectives of the Mysore Zoo are to impart conservation education to the public to inspire empathy for wildlife and veterinary aspects of animals in captivity. It is proudly acclaimed that zoo has been successful in creating a connection between animals and visitors by providing best inspirational and educational experiences, fostering public appreciation and support for conservation of wild animals.

Since its inception, the Mysore Zoo has expanded from a mere 10.9 acres to 157.15 acres including the Karanji Lake with its picturesque background of Chamundi Hills. Efforts are being made to provide wondrous environment for our visitors and the animals in our care. Karanji Lake has been developed into a bird watcher's paradise with many heronary and butterfly park. It serves as an important recreational facility offering boating and nature walk with strong conservational inputs.

Why to adopt?

The adoption programme is a novel way to show your support and care for wild animals. By adopting your favorite animal, you will contribute towards feeding of the animal for one full year (or period of adoption). You will be a part of Mysore Zoo's efforts in wildlife conservation

Mysore Zoo is involved in captive breeding programme for endangered species and other conservation projects - all of which need the support of concerned people like you.

Finally, adopting an animal is fun not only for you, but for your friends and family too. An adoption makes a great gift for birthdays, anniversaries etc., and is always unique. Show your concern towards conservation.
